

SUPPLIER QUALIFICATION PROGRAM? 7 (SQP)

SUPPLIER MANAGEMENT VERIFICATION SOLUTIONS

The SQP audit standard was developed by rigorously surveying the requirements of global consumer product brands and retailers to improve product quality and safety performance of your supply chain, and drive continual improvement in your processes.

Your challenges

With tightening regulation and increased risk associated with product recalls, product quality and safety have become increasingly central to the health of your business.

Measuring supplier performance through open industry, country, and global benchmarking, while facilitating continuous improvement in managing product quality and safety is one of the major challenges that businesses face.

International retailers, brands and buyers are demanding more effective ways to evaluate supplier manufacturing performance through improved transparency and more reliable, open benchmarking processes.

Our solutions

Intertek's Supplier Qualification Program provides a world-class Industry Standard that drives continuous improvement through open benchmarking. ECB's strength lies in its accredited training program, qualified trainers and auditors, risk-based scorecard as well as a continuous corrective and preventative action process.

SQP focuses on the Consumer Product manufacturing industry and covers the following areas:

- Management Commitment and Continual Improvement
- Risk Management Systems

- Quality Management Systems
- Site and Facilities Management
- Product Control
- Garment
- Product Testing and Product Claims
- Process Control (Hardline, Garment, Toy and Footwear)
- Personnel Training and Competency

The SQP Business Benefits include:

- Improved Controls and Processes for Managing Product Quality and Safety
- Improved Transparency and Trust between Buyers and Suppliers
- Reduced Audit Fatigue
- Ability to Demonstrate Measurable Outcomes
- Better Risk Management
- Recognition through Achievement Award for Top Performing Suppliers
